THE CITY and COUNTREY CHAPMANS ALMANACK

For the Year of our Lord 1687.

Wherein all the Marts and Fairs in *England* and *Wales*, are disposed in an Alphabetical Order in every Moneth, so that both the place where, and the day on which any of them are kept, is immediately found.

Also the Post Roads, and their several Branches throughout *England* and *Wales*, with their Distances described in a New Method.

And the Names of all the Market Towns in every County in *England* and *Wales*, and the day of the Week on which any of them are kept.

Likewise a Table of Accounts ready cast up, for the Buying or Selling of any Commodity by the Yard, Ell, Gallon, or the like, at any Price, from one Farthing to Ten pound, and of any quantity, from One, to Ten thousand.

With other things useful for all sorts of Traders or Chapmen whatsoever.

LONDON. Printed by *Tho. James* for the Company of STATIONERS 1686.

A Brief CHRONOLOGY.

THE Conqueſt of *England* by Duke *William* 613

I. To find how long the Moon Shineth.

Example. On the 9 *March* I would know how long the Moon Shineth. The Moon that day is 6 days old: wherefore, find 6 in the first Column of this Table, and against it you shall find 4 ho 48 m and so long doth the M. shine.

II. To find the time of the Moons coming to the South.

Example, Upon the 13 of *March,* the Moon being 10 days old: Look for 10 days in the third Column of the Table, and against it, in the fourth Column you shall find 8 h. 00 m so that the Moon will be South at 8 a Clock at Night.

III. To find the time of the Moons Rising and Setting.

1 If the Moon be less than 15 days old, add the time of her Shining to the time of the Suns Rising, and the Sum will be the time of the Moons Rising.

2. If the Moon be above 15 days old, take the quantity of her Shining from the time of the Suns Rising, and the remainer will be the time of the M. Rising.

For the Moons Setting.

1. If the Moon be less than 15 days old, add the time of her Shining to the time of the Suns setting. and the Sum shall be the time of the Moons Rising.

2. If the Moon be above 15 days old, Substract the Shining from the Sun-setting, adding 12 hours if need be, and the remainer shall be the time of the Moons Setting; *March* 9, the M. will Rise at 10h. 49 m and Set at 11h

April hath XXX Days.

To find the hour of the night by the Moons Shadow on a Sundial.

Find at what time the Moon comes to the South as before, which known, mark how much the Shadow upon the Dial wants of 12; which take from the time of the Moons coming to the South, the remainer is the hour of the night But if the Shadow be paſt 12, add thoſe hours to the coming to the South and the Sum is the hour of the night.

Example. Upon the 16th of *March*, the Moon being 13 day old, and comes to the South at 24 h. 24 m. and that night I find the Shadow at 9 h. 30 m. which wants 2 h. and a half of 12, wherefore take 2 h. 30 m. from 10 h. 24 m. and there will remain 7 h. 54 m. for the hour of the night —— But if the Shadow had been 2 h. 30 m. after 12, thoſe added to 10 h. 24 m. would make 12 h. 54 m. for the hour of the night.

May hath XXXI Days.

Ruptures or Broken Bellies.

PReſent help for Men, Women or Children, by a Traveller famous in *Germany*, and other Countries for his Practice this five and Twenty Years; who makes all ſorts of Truſſes eaſie, none ſuch made in *England* as theſe be, found by Experience. He helps thoſe at a diſtance, as well with Directions, as thoſe in *London*, and helps thoſe that cannot hold their Water, or bearing down in their Privy-Parts, and maketh ſtrait Stockings. The Poor have advice for nothing. Take it in time. By *R. Collins*. From Nine to Twelve, at the *Bell* and *Naked Boy* on the *Ditch-ſide* at *Fleet-bridge*. The Afternoon, at the *Bell* in St. *John*'s Court in *Clarkenwel* Pariſh.

THoſe highly approved, and only true Spirits of *Scurvy-Graſs*, both plain and golden, famous for the Cure of the *Scurvy*, *Dropſie*, and ſeveral other general Diſtempers, are exactly and faithfully prepared by *Martha Hooker*, Executrix of Mr. *Robert Bateman* at his Houſe in *Pauls-Chain*, near *Doctors-Commons*, *London*: Price 1 *s.* each Bottle, the Bottles being ſealed with his Coat of Arms, the *Half-Moon* and *Ermins*, with Printed Directions to each Bottle, which is to prevent your being cheated with Counterfeits, which are lately ſtarted up, which notwithſtanding all the late pretences, our own Experience tells us, that theſe are the *true Spirits*.

10000	3500	0	4000	0	4500	0	5000	0

The Number of Pounds, Yards, Gross, or the like, to be bought or sold.

The Use of the Table of Accounts.

THis Table will serve for many good purposes, but it is here principally intended for the Chapmans use in Buying or Selling of any Commodity by the Yard, Ell, Pound, Hundred, Gallon, *&c.* And its use is very easie; as by

Example I.

At 9 d. the Yard, what will 70 yards come to?

Look for 9 *d.* at the head of the Table, and for 70 in the first Row or Column of the same Table, and against 70, and under 9 *d.* you shall find 2 *l.* 12 *s.* 6 *d.* And so much will 70 Yards at 9 *d.* the Yard come to.

Also, *At 5 d. the Gallon, 500 Gallons will come to* 10 l. 8s. 4d.

And so of any other Price, or any other Number.

But if you cannot find your just Price at the head of the Table, nor your just Number on the side, you must then take it out at twice, and adde them together, and the sum shall answer your Question.

Example II.

At 7 s. the Dozen of Gloves, what will 78 dozen come to?

	l.	s.
70 Dozen at 7 *s.* comes to	24	10
8 Dozen at 7 *s.* comes to	2	16
The Sum	27	06

So that 78 Dozen at 7 *s.* the Dozen, come to 27 *l.* 6 *s.*

Example III.

At 3 s. 5 d. 3 q. the Ell, what will 300 Ells come to?

	l.	s.	d.
300 Ells at 3 *s.* come to	45	0	0
300 Ells at 5 *d.* comes to	6	5	0
300 Ells at 3 *q.* comes to	0	18	9
The Price of 300 Ells	52	3	9

Example IV.

At 7 d. halfpeny the Pound, what will 92 Pound come to?

	l.	s.	d.
90 Pound at 7 *d.* the Pound, comes to	2	12	6
2 Pound at 7 *d.* the Pound, comes to	0	01	2
90 Pound at a halfpeny, comes to	0	03	9
2 Pound at a halfpeny, comes to	0	00	1
The Price of 92 Pound, at 7 *d.* 2 *q.*	2	17	6

A Dicker of Hids or Skins of Leather,	10 Skins
A Chaldron of Coles,	36 Bushels
A Load of Timber,	50 Solid foot
In a Hogshead of VVine,	63 Gallons
